

MOMIJI@HOME

Since the opening of Momiji Senior Residence in 1992, Momiji Health Care Society has provided a wide range of services, supporting seniors who wish to continue living at home. Now, with the MOMIJI@HOME program, similar services are extended to seniors living in the community. Guided by Momiji's philosophy of respect, dignity, and independence, our culturally-sensitive home care services provide both short-term and long-term support from highly trained professionals, ensuring peace of mind for seniors and their families.
